Tpoint

Smart outdoor squash courts
in public places

Our Vision

Making squash into a popular sport. Through the establishment of smart squash courts in public places

Our concept

Public exposure

Taking squash out into the public areas will increase accessibility

Design, manufacturing and construction

We offer a comprehensive solution of building attractive and innovative squash courts with smart systems and application management for minimal maintenance.

Culture hub

Establishing Tpoint in public areas throughout the city will create a sporting and social community centers for classes, competitions and events for diverse audiences.

About us

Tpoint was founded in 2014

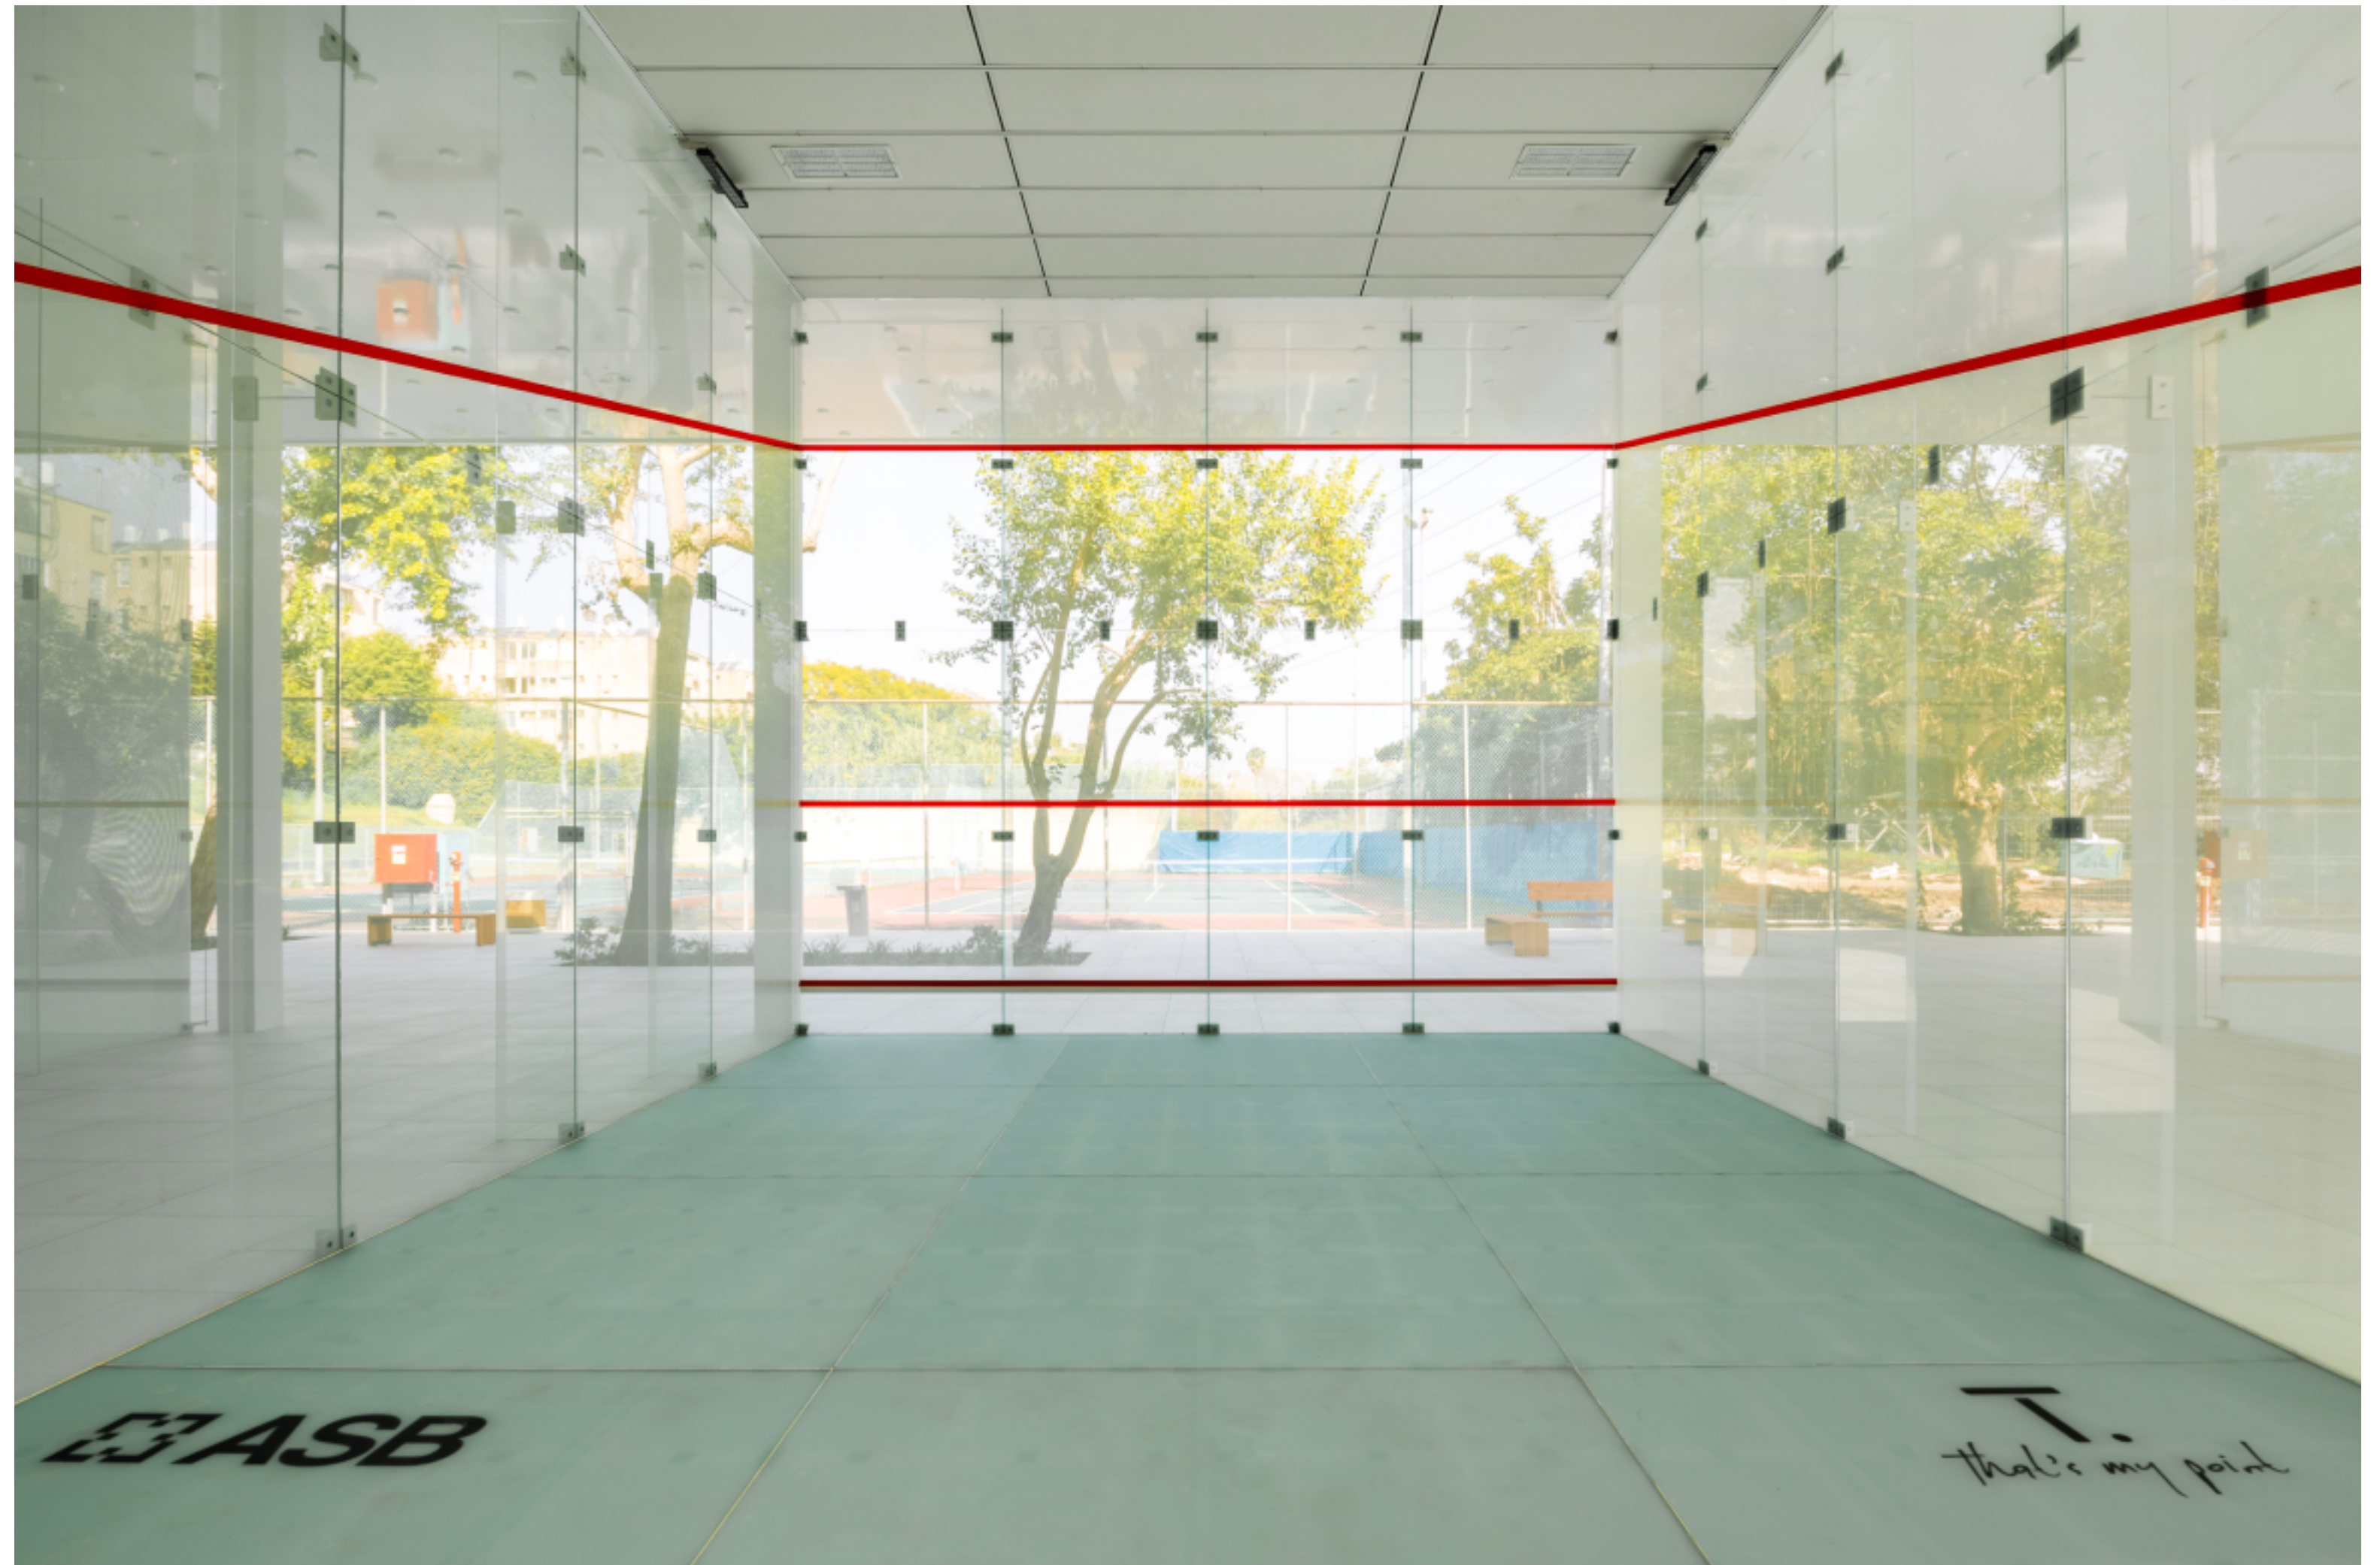

With the aim to promote squash around the world through the establishment of smart glass courts in public places.

International excellence

Tpoint Partner is ASB Squash Company — the leading company in the world of squash courts, with over 50 years of experience and thousands of operational squash courts worldwide.

Our first courts

The first project in Israel of 8 glass courts was constructed for Tel Aviv municipality and will be launched to the public in mid 2021.

“The most
healthiest sport”

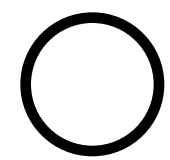

As seen on Forbes Magazine

Why squash?

T.
that's my point

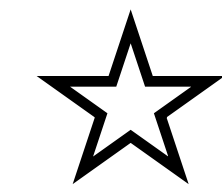

Empowering experience

The game that perceived as an elitist sport — becoming available for all communities and suitable for all age groups

Promoting healthy lifestyle

Burns lots of calories (over 500 calories per 30 m), improves cardiovascular endurance and helps build muscle and flexibility

Maximizing human potential

An interesting, imaginative game for practicing concentration and coordination.
Coaches for adaptation and rapid changes that are required in today world.

A game changer

A multifunctional squash court made from advanced glass that allows players to practice in an outdoor environment during all seasons.

T.
that's my point

Our court

A modular glass structure squash court, allowing one and more units to be built, depending on the area size.

T.
